**Title 17, California Code of Regulations (CCR) §2500, §2593, §2641-2643, and §2800-2812
Reportable Diseases and Conditions**

State law requires that health care providers report diseases of public health importance. Physicians, nurses, dentists, coroners, laboratory directors, school officials and other persons knowing of a CASE OR SUSPECTED CASE of any of the following diseases or conditions are required to report them to the local Department of Public Health.

- §2500(b) It shall be the duty of every health care provider, knowing or in attendance on a case or suspected case of any of the diseases or conditions listed on the front, to report to the local health officer for the jurisdiction where the patient resides. Where no health care provider is in attendance, any individual having knowledge of a person who is suspected to be suffering from one of the diseases or conditions listed on the front may make such a report to the local health officer for the jurisdiction where the patient resides.
- §2500(c) The administrator of each health facility, clinic or other setting where more than one health care provider may know of a case, a suspected case or an outbreak of disease within the facility shall establish and be responsible for administrative procedures to assure that reports are made to the local health officer.
- §2500(a)(14) "Health care provider" means a physician and surgeon, a veterinarian, a podiatrist, a nurse practitioner, a physician assistant, a registered nurse, a nurse midwife, a school nurse, an infection control practitioner, a medical examiner, a coroner or dentist.

HOW TO REPORT ALL DISEASES, EXCEPT HIV/AIDS:

Extremely urgent conditions: (i.e., Anthrax, Botulism, Brucellosis, Cholera, Dengue, Diphtheria, Outbreaks of any kind - including Foodborne, Plague, Rabies, Relapsing Fever, and Smallpox) are to be reported immediately by telephone, 24 hours a day, to the appropriate number.

Urgent conditions: Foodborne illnesses should be reported by telephone or fax within one (1) working day of identification of the case or suspected case.

Non-urgent conditions: are to be reported within seven (7) calendar days from the time of identification.

Although it is not mandatory at this time, health care providers are encouraged to enroll in the California Reportable Disease Exchange (CalREDIE) and submit reports electronically.

The appropriate Confidential Morbidity Report (CMR) form must be completely filled out. All of the requested information is essential, including the lab information for selected diseases. All phone, fax, and mailed reports are to be made to the Disease Control Office, with the following exceptions: Reports of sexually transmitted diseases are to be faxed to (951) 358-6007 or mailed to the STD Program Office.

Confidential Morbidity Report (CMR) forms are available online at www.rivco-diseasecontrol.org .

ANIMAL BITE: Animal bites by a species subject to rabies are reportable in order to identify persons potentially requiring prophylaxis for rabies. Additionally, vicious animals identified may be controlled by this regulation and local ordinances (California Administration Code, Title 17, Sections 2606 et seq.: Health and Safety Code Sections 121575-120435). Reports can be filed with the local Animal Control Agency or Humane Society. The County Animal Control office may assist in filing your report. Call (951) 358-7327 or (951) 358-7387. Report form is available at www.rivco-diseasecontrol.org

PESTICIDE EXPOSURE: The Health and Safety Code, Section 105200, requires that a physician who knows or who has reason to believe that a patient has a pesticide-related illness or condition must report the case to the local County Health Office by phone within 24 hours. For occupational exposure there is an additional requirement to send the "Doctor's First Report of Occupational Injury or Illness" to the Department of Public Health within 7 days. Phone reports may be made to (951) 358-5107; or faxed to (951) 358-5102. Copies of the required report forms (OEH-700 [Rev. 9/06] and California Form 5021 [Rev. 4] 1992) may be obtained from the same office. Report form is available at <http://www.oehha.ca.gov/pesticides/programs/Pestrpt.html>

REPORTING DISORDERS CHARACTERIZED BY LAPSES OF CONSCIOUSNESS: Health and Safety Code 103900 requires: Every physician and surgeon shall report immediately to the local health officer in writing, the name, date of birth, and address of every patient at least 14 years of age or older whom the physician and surgeon has diagnosed as having a case of a disorder characterized by lapses of consciousness. However, if a physician and surgeon reasonably and in good faith believes that the reporting of a patient will serve the public interest, he or she may report a patient's condition even if it may not be required under the department's definition of disorders characterized by lapses of consciousness pursuant to subdivision (d).
